# Safety in the hands of the people that matter.

Extend your safe system of work with real-time workplace health and safety apps, keeping your workforce safe.
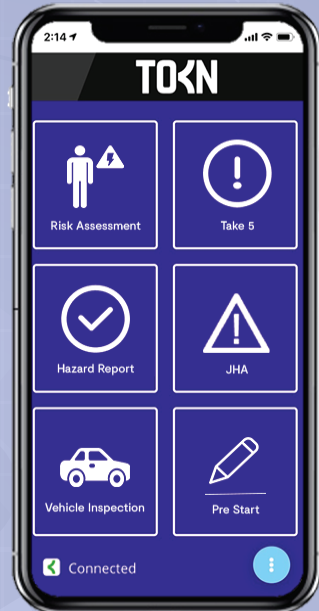

FieldSafe Safety Suite

FieldSafe Safety Suite:
- Vehicle Inspection Assessment
- Risk Assessment
- Take 5
- Hazard/Incident Report
- Pre-Start Assessment
- Digital SWMS

Optional Extras:
- Electrical Installation Testing
- Fatigue Management Assessment
- Field Leadership
- Job Hazard Anlaysis
- Broadcast Messaging
- Site Diary
- Safe Act Observations

The FieldSafe Safety Suite allows you to complete all your safety documentation from the palm of your hand, on your own device – anywhere, anytime. Utilise the intelligent software to prevent an incident before it happens with alerts of potential risks to your workers on site. Track reporting of all critical safety interactions, allowing you to review your data should something go wrong. All safety interactions are stored on the TOKN Cloud Platform and can be accessed from anywhere, ensuring you are always compliant.

Report incidents, audit processes and access procedure guides in the field. The FieldSafe Safety Suite extends your safe system of work with real-time workplace safety apps, from the palm of your hand.
