

TOKN

Do more of what matters

“ Drive efficiency to another level with full digital capability, at a fraction of the price.

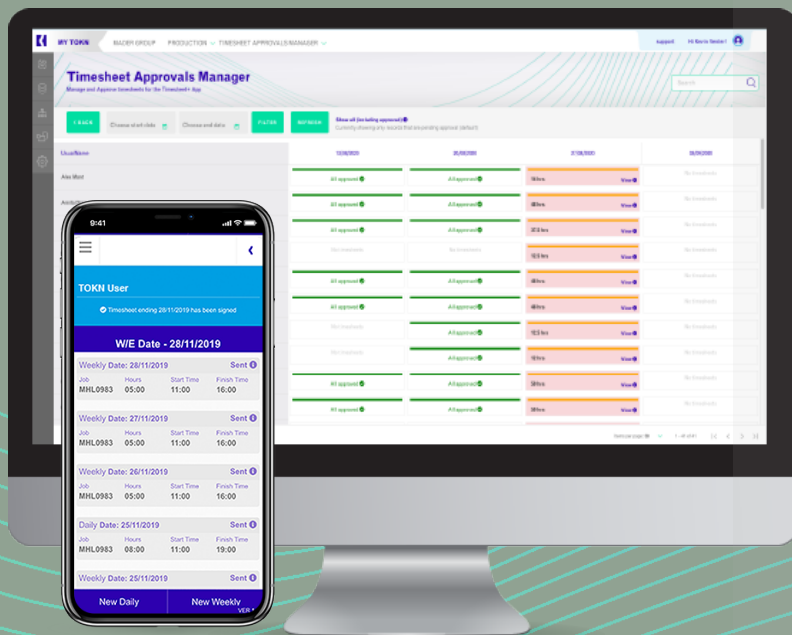

Streamline your processes

Powered by TOKN's powerful Enterprise Mobility Platform, Timesheets+ enables your team to capture their hours from their mobile device, anywhere, anytime.

TOKN's Timesheet+ time management solution is the most comprehensive mobile time capture and approvals solution. Timesheet+ allows staff to capture timesheets on their mobile phone then easily send them for approval. Automate administration with integration directly to your existing system, making reported hours instantly available for billing and reporting, accelerating your billing cycles.

TOKN sets your system free in three simple steps:

- Making the timesheet creation and approval process mobile. Every employee has a phone; leverage that to simplify timesheet capture.
- Allow first level approval of timesheets on the mobile and potentially remove additional administration steps.
- Give all the power to the approval managers to handle everything from one place.

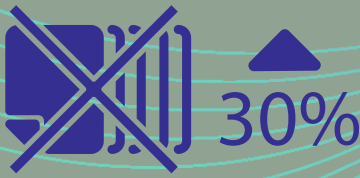

- Complete timesheets on any device – Android, IOS or Windows
- Go digital at a fraction of the price with flexible pricing options
- Quickly deploy your new timesheets system with zero installation
- Seamlessly integrates your business
- Mobile approval for your clients with no extra cost
- Full compliance record of all time entry data

More gains with less effort

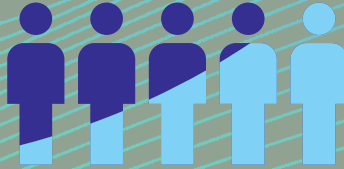

Increase in productivity

Remove duplication

Increase data accuracy

People get paid on time, expedite your billing cycle

Remove paper-based processes

increased use of mobility within a simple framework

The TOKN Timesheet Approvals Manager is a fully-fledged timesheet management solution that runs on top of the TOKN Infrastructure to provide the ability for employees to capture their timesheets on their phone and have them approved with a single click in the Timesheet Manager interface:

- Single click timesheet approval and rejection
- Change time, job, business unit and more in an easy-to-use, intuitive interface
- View timesheet text, images captured and generate PDF
- Automatic approval workflows based on existing hierarchies
- Expedite your billing cycle
- Ensure your employees get paid on time
- Internal & external approvals from mobile or desktop
- All data and approvals are recorded and managed in one place

“A convenient and efficient way for our employees and clients to reduce waste and time”

Lili Lim, Mader Group
