

A worker in a white hard hat and safety vest is looking at a tablet in a factory setting. The background is filled with industrial machinery and pipes, all bathed in a blue and green light. A large, semi-transparent green shape is overlaid on the right side of the image, containing the text.

TOKN

Your System. Connected.

“ Keep your customers relevant with the power of mobility minus the headaches.

TOKN's low-code environment allows you to go mobile with ease. With simple, easy-to-use templates, get up and running in minutes.

Resources

Look after safety and work permits easily, even for workers in remote areas, with TOKN's data-transfer upon connection.

Engineering

With engineering projects often arranged over several stages, connect the pieces with single mobile system.

Construction

Keep projects on track, with an overview of staff, contractors, materials, logistics and timelines.

Logistics

Use a third-party barcode scanner or native camera facilities on mobile phones for pick-packing, warehousing and more.

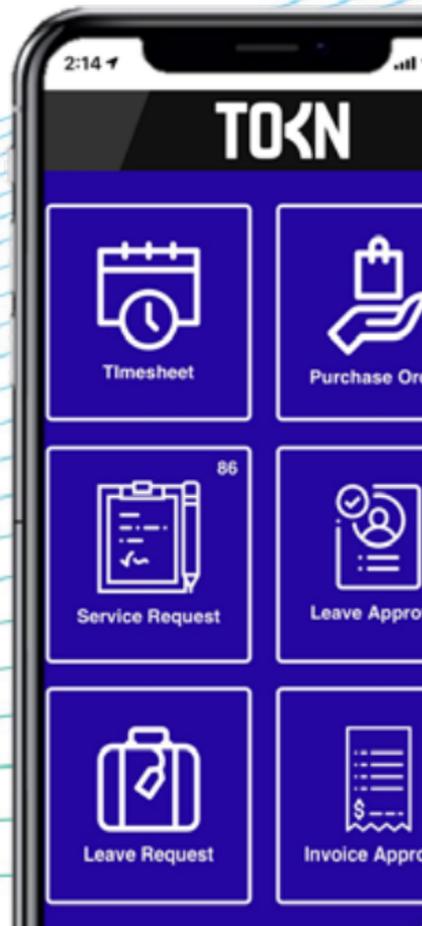

Sales

Bring everyone into the same system, set and follow up on targets and finalise purchase orders in one place – on a smartphone.

Retail

Imagine being able to do a stocktake, approve timesheets and automate reordering all under the one system.
