

Next gen workforce management platform

Automates workflows, engages people, enhances site safety and operational efficiency.

TOKN is a unifying cloud platform that connects the organisation systems, data and users, delivering real-time information, making operations safer, better connected and more productive.

TOKN is quick to deploy, and is helping enterprise businesses of all sizes and budgets to rapidly transform critical processes at scale, without the associated costs and delays of traditional development projects.

From digital field safety, smart workforce management capability and fast ERP integration TOKN unlocks the workforce, streamlines payroll processing, boosts cash flow, improves safety compliance and engages teams.

TOKN brings people and systems together, putting everything in one place, with enhanced user experience, secure digital access and low maintenance, allowing you to scale your business.

"We want to be really connected to our mobile workforce, to keep them operating safely and make our business more productive. TOKN provides technology that helps us achieve that."

John Greville

Unify

All your people, systems and data together, driving real transformation.

Simplify

Low maintenance, low-code, your business, the way you work.

Automate

Workflow automation and process efficiency.

Scale

Secure, scalable cloud delivery, sustained and renewed.

Innovation that connects your workforce

Make operations safer, optimise utilisation, streamline payroll and scales your business.

TOKN is an innovative digital technology company founded on the vision to be the **Number #1 Rapid app** platform for medium sized businesses. TOKN sees a world where organisations, of all sizes and budgets, can easily harness the power of digital technology to drive efficiency.

Headquartered in Perth, TOKN is used by leading companies at over 300 sites across Australia, New Zealand, North America and South Africa.

Multi award winner for innovation, winners of WITTA (West Australian Innovation and Technology awards), Innovator of the Year, Telstra Best of Business State finalist. Core Hot 30 scale ups 2024.

TOKN is more than just a platform. It is an expanding global ecosystem of vendors, resellers and customers all working closely together to deliver solutions you love to use.

Customer Driven Innovation

Fast delivery of solutions that work the way you do.

Off the shelf solutions often don't quite do what you need and enterprise customers require the flexibility to tailor solutions to suit their business. This can mean expensive software and technical resources.

TOKN's brings together critical self service digital capability required to customise your integration and applications without requiring expensive software and development resources. Saving time, money and ensuring a robust and sustainable digital transformation that works the way you do.

Why TOKN?
